US Government Gives Money to Israel Rather than to Educating American Youth

The Jewish-Supremacist controlled US government is about to double the cost of federally subsidized loans to students in America—while at the same time given loans to Zionist banks at seven times less than students and pumping over $8 million per day to Israel in “aid.”

On July 1st, the interest rate on new, federally subsidized student loans is set to double from 3.4 to 6.8 percent. Currently, outstanding graduate student debt in America is of the order of $1 trillion—more than all the outstanding credit card debt in the whole country.

A bank in America can get a loan through the Federal Reserve discount window at a rate of about 0.75%, but a student who is trying to get a loan to go to college will pay almost 7%.

Profits generated to the federal government on student loans (36 cents in profit on every dollar) brings in $34 billion per year.

At the same time, the Federal Reserve has floated trillions of dollars to the Ziobanks to keep them afloat, and, according to the Costofwar.com project, the total cost of the pro-Israel war in Iraq has so far been in excess of $810,540,000,000 and in Afghanistan, over $627,115,000,000—and rising all the time.

And yet the US government sees fit to allow American students, hard-pressed as they are, to be charged billions for loans which are dwarfed by the expenditure on wars fought for the sake of the Jewish lobby and Israel.

In addition, a new report just out has revealed that Israel receives at least $8.5 million every day in direct aid from American taxpayers.

The Jewish Supremacists have therefore, as Carl Bernstein said (see Dr. Duke’s latest video here), harmed America not only morally, but physically as well.
